

ABA: 2743

Pa

A fluorescence microscopy image of a plant stem cross-section. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant is labeled 'ABA: 2743' and the bottom-left quadrant is labeled 'Pa'. The entire image shows a blue signal, which is more intense in the right half (labeled 'Pa') compared to the left half (labeled 'ABA: 2743'). The signal is distributed throughout the stem tissue, with some brighter spots and a more uniform appearance in the right half.
