

ABA: 564749

A posterior

The image displays a cross-sectional view of a human brain, likely from a functional imaging study. The brain is rendered in a dark blue color against a black background. A vertical white line is positioned on the left side of the image, and a horizontal white line is positioned at the bottom. The text 'ABA: 564749' is located in the top-left corner, and 'A posterior' is located in the bottom-left corner. The brain shows a central sulcus and a prominent blue highlighted area in the left hemisphere, possibly indicating a region of interest or activation.
