

ABA:67978696

SPa dorsal

A fluorescence microscopy image showing a neuron with a blue signal. The neuron is roughly circular and occupies most of the frame. A small, bright blue spot is visible at the bottom center of the neuron. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:67978696' is in the top left, and 'SPa dorsal' is in the bottom left.
