

ABA:67979035

A posterior

The image displays a posterior view of a brain scan. A central vertical line and a horizontal line intersect at the center, forming a crosshair. The brain's structure is visible in shades of blue against a black background. There are several distinct blue spots or regions of higher intensity, notably one in the lower-left quadrant, one in the lower-right quadrant, and a small one near the center-right. The text 'ABA:67979035' is located at the top left, and 'A posterior' is at the bottom left.
