

ABA:68203481

A anterior

An axial MRI scan of a human brain. The image is mostly black, with a prominent red overlay that highlights a specific region in the central part of the brain, likely the corpus callosum or a similar midline structure. The red area is roughly U-shaped, following the midline. A vertical white line is drawn through the center of the brain, and a horizontal white line is drawn across the middle. The text 'ABA:68203481' is in the top left, and 'A anterior' is in the bottom left.
