

ABA:68300851

VMH

A coronal brain scan image showing a cross-section of the brain. The image is predominantly black, with a large, irregularly shaped region highlighted in a bright blue color. This blue region is located in the central part of the brain, roughly between the midline and the lateral edges. The blue region has a somewhat lobulated appearance, with several smaller blue spots scattered throughout. A vertical white line runs down the center of the image, and a horizontal white line runs across the middle, intersecting at the center of the blue region. The text 'ABA:68300851' is located in the top left corner, and 'VMH' is located in the bottom left corner.
