The image displays a coronal brain scan with a color scale from blue to red. A prominent focal area of activation is visible in the posterior region, appearing as a bright red and yellow spot. The rest of the brain is shown in shades of blue, indicating low activity. A white crosshair is overlaid on the image, with the vertical line passing through the center of the focal area. The text 'ABA: 68300944' is located in the top left corner, and 'S0' is in the bottom left corner.
