

ABA : 68301682

Arc

The image displays two coronal brain sections. The left section shows a heatmap where the Arc gene expression is localized to the hippocampal region, indicated by yellow and red colors. The right section shows a heatmap where the ABA gene expression is localized to the same hippocampal region, also indicated by yellow and red colors. A vertical white line separates the two sections, and a horizontal white line is positioned below the heatmaps.
