

ABA : 68342354

S0

This figure displays an axial brain scan, likely a PET or SPECT image, showing a cross-section of the brain. The image is predominantly dark blue, indicating low signal intensity. A prominent focal area of high signal intensity, shown in yellow and green, is located in the lower-left quadrant of the image, corresponding to the left hemisphere of the brain. The brain's anatomical structure, including the ventricles and sulci, is visible as lighter blue and white areas. The image is overlaid with a white grid. The text 'ABA : 68342354' is positioned at the top left, and 'S0' is at the bottom left.
