

ABA: 68410201

SCN

A fluorescence microscopy image of a brain section. The image shows a large, roughly circular area of blue fluorescence, which is the SCN (Suprachiasmatic Nucleus). The fluorescence is distributed throughout the SCN, with a slightly brighter area at the bottom center. A white crosshair is overlaid on the image, with the vertical line passing through the center of the SCN and the horizontal line passing through the bottom center of the SCN. The text 'ABA: 68410201' is in the top left corner, and 'SCN' is in the bottom left corner.
