

ABA: 68410476

Arc

This image shows a coronal section of a brain with two channels of fluorescence. The top channel, labeled 'ABA: 68410476', shows a blue signal distributed across the brain. The bottom channel, labeled 'Arc', shows a red signal. A vertical white line is drawn down the center of the image, and a horizontal white line is drawn across the middle. The Arc signal is notably concentrated in the lower-left quadrant, appearing as a bright red spot.
