

ABA: 68443459

LH

This is a brain scan image, likely an axial slice, showing functional activity. The image is divided into four quadrants by a vertical and a horizontal white line. The left hemisphere (viewer's left) shows a prominent area of high activity, indicated by bright yellow and orange colors, primarily in the lower-left quadrant. The rest of the brain, including the right hemisphere and the upper-left quadrant, shows low activity, represented by dark blue colors. The text 'ABA: 68443459' is in the top-left corner, and 'LH' is in the bottom-left corner.
