

ABA: 68446003

Tg

A fluorescence microscopy image of a cell, likely a Drosophila ommatidium, showing a bright spot in the nucleus. The image is divided into four quadrants by a horizontal and vertical line. The bright spot is located in the upper-left quadrant, near the center of the cell. The rest of the cell is dimly fluorescent, with some blue and green hues. The text 'ABA: 68446003' is in the top-left corner and 'Tg' is in the bottom-left corner.
