

ABA : 68633261

Tg

The image displays a fluorescence microscopy scan of a biological specimen, likely a whole organism or a large cell. The specimen is primarily blue, indicating a low level of fluorescence. A distinct, localized signal is visible in the lower-left quadrant, appearing as a bright yellow-green spot. The image is overlaid with a white crosshair that divides the field into four quadrants. The text 'ABA : 68633261' is located in the top-left corner, and 'Tg' is in the bottom-left corner.
