VPM/VPL

An axial brain scan showing a localized area of activation in the left hemisphere, labeled as VPM/VPL. The activation is represented by a bright cyan spot. The rest of the brain is shown in a dark blue color. The image is divided into four quadrants by a white crosshair. The text 'ABA : 68637611' is in the top left, and 'VPM/VPL' is in the bottom left.
