

ABA: 68637921

Arc

This image shows a coronal section of a brain with two channels of fluorescence. The top channel, labeled 'ABA: 68637921', shows a blue signal distributed across the brain. The bottom channel, labeled 'Arc', shows a yellow-green signal. A prominent yellow-green spot is visible at the intersection of a vertical and a horizontal white line, indicating a specific region of interest where both ABA and Arc are expressed.
