

ABA: 68638131

SCN

A fluorescence microscopy image of a brain section, likely a coronal slice, showing ABA staining. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant contains the text 'ABA: 68638131'. The bottom-left quadrant contains the text 'SCN'. The brain tissue is stained with a blue fluorescent marker, showing a dense distribution of signal throughout the section. There are two distinct, brighter spots of signal located in the lower-left quadrant, near the intersection of the horizontal line and the left edge of the brain section.
