

ABA: 68666977

SCN

A fluorescence microscopy image of a brain section. The image shows a central region with blue fluorescence, indicating the presence of a specific marker. The fluorescence is concentrated in the SCN (Suprachiasmatic Nucleus) region, which is located in the lower part of the image. The rest of the brain section shows very little fluorescence. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 68666977' is in the top-left corner, and 'SCN' is in the bottom-left corner.
