IC

This image shows a fluorescence microscopy view of a plant root tip. The root is stained with a fluorescent marker, likely auxin, which appears as a blue signal. The root is divided into three sections by a vertical line. The left section shows a bright spot of auxin, indicating a high concentration. The middle section shows a lower concentration of auxin, and the right section shows a very low concentration. The text 'ABA: 6866772' is in the top left, and 'IC' is in the bottom left.
