The image displays a coronal cross-section of a brain. The two hemispheres are visible, with a central vertical line indicating the midline. A horizontal line is positioned near the bottom of the image. The brain tissue is primarily dark, with several areas of activation highlighted in blue and cyan. These highlights are concentrated in the lower central region, near the base of the brain, and in the lower left hemisphere. The text 'ABA: 68745347' is located in the top left corner, and 'Pn' is in the bottom left corner.
