

ABA: 68745444

A anterior

An axial PET scan of the brain. The image shows a cross-section of the brain with a color scale from blue (low activity) to yellow (high activity). A prominent focal area of increased activity is visible in the left anterior region, indicated by a yellow and red spot. The rest of the brain shows relatively low activity, represented by blue and dark blue colors. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the focal area. The text 'ABA: 68745444' is at the top left, and 'A anterior' is at the bottom left.
