

ABA:68797733

Tg

The image displays a fluorescence microscopy scan of a plant tissue section, likely a leaf. The tissue is represented by a blue, irregularly shaped area against a black background. A prominent, bright cyan spot is visible in the lower-left quadrant, indicating a specific point of interest or high fluorescence intensity. The image is divided into four quadrants by a white crosshair. The text 'ABA:68797733' is located in the top-left corner, and 'Tg' is in the bottom-left corner.
