

ABA:68798543

OB anterior

A fluorescence microscopy image of a brain section. The image shows two distinct clusters of signal. The cluster on the left is more intense, with a bright yellow-green core surrounded by a blue halo. The cluster on the right is less intense, appearing as a solid blue mass. A vertical white line is positioned to the left of the clusters, and a horizontal white line crosses the middle of the image. The text 'ABA:68798543' is located in the top left corner, and 'OB anterior' is in the bottom left corner.
