

ABA: 68798849

CA1

This is an axial brain scan, likely a PET or SPECT image, showing a cross-section of the brain. The image is predominantly blue, indicating low signal intensity. A focal area of high signal intensity is visible in the left hemisphere, characterized by a color gradient from cyan to yellow and red. The brain is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 68798849' is located in the top left corner, and 'CA1' is in the bottom left corner.
