

ABA: 68798873

M

The image shows a fluorescence microscopy view of a cell. The cell is roughly circular and filled with a blue signal. A bright, multi-colored spot (yellow, orange, red) is located at the center of the cell, where a vertical and a horizontal white line intersect. The text 'ABA: 68798873' is in the top left, and 'M' is in the bottom left.
