VMH

A fluorescence microscopy image of a brain section, likely a coronal slice. The image shows a blue-stained region, which is the ventral medial hypothalamus (VMH). The staining is more intense in certain areas, particularly in the upper left and lower right quadrants. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the VMH region. The text 'ABA : 68844026' is located in the top left corner, and 'VMH' is located in the bottom left corner.
