

ABA : 68845365

DM

The image displays two side-by-side brain scans, likely representing a control and an experimental condition. The left scan shows a complex, textured blue pattern with a prominent bright spot in the upper-middle region and another smaller bright spot in the lower-left quadrant. The right scan is a uniform, solid blue color. A white crosshair is overlaid on the center of both scans, dividing them into four quadrants. The text 'ABA : 68845365' is located at the top left, and 'DM' is at the bottom left.
