

ABA : 69113722

VA/VL

An axial brain scan image showing activation in the left hemisphere. The image is a grayscale slice of a brain, with a vertical line indicating the midline. The left side of the image (patient's right) shows several small, bright spots of activation. The right side of the image (patient's left) is mostly dark, indicating no significant activation. The text 'ABA : 69113722' is in the top left, and 'VA/VL' is in the bottom left.
