

ABA: 69174577

CA1

A fluorescence microscopy image of a brain section, likely from a rodent, showing the CA1 region. The image is presented in a split-screen format, with the left half showing a control or baseline state and the right half showing a state after treatment with ABA (69174577). The CA1 region is highlighted in blue. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 69174577' is located in the top left corner, and 'CA1' is in the bottom left corner. The right half of the image shows a dark vertical band in the center, which is absent in the left half, suggesting a change in the CA1 region after treatment.
