

ABA: 69202460

VMH

This fluorescence microscopy image displays a coronal section of a brain. The image is divided into two main regions by a vertical white line. The left region shows a bright, localized spot of yellow-green fluorescence, indicating a specific area of interest. The right region is predominantly blue, suggesting a different level of fluorescence or a control area. The text 'ABA: 69202460' is visible in the top left corner, and 'VMH' is visible in the bottom left corner.
