

ABA: 69262328

VMH

This image is a fluorescence micrograph of a brain section, likely from a rodent, showing the ventral medial hypothalamus (VMH). The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a brain section with a blue fluorescent signal, which is more intense in some areas, particularly in the upper and lower portions. The right half of the image shows a brain section with a uniform blue fluorescent signal. The text 'ABA: 69262328' is in the top left corner, and 'VMH' is in the bottom left corner.
