

ABA: 69262348

Tg

A fluorescence microscopy image of a cell. The cell's nucleus is stained blue and occupies the left half of the image. Several bright yellow-green spots are visible within the blue-stained area, indicating specific cellular components or markers. The image is divided into four quadrants by a white crosshair. The top-left quadrant contains the text 'ABA: 69262348' and the bottom-left quadrant contains the text 'Tg'.
