

ABA: 69289693

VMH

A fluorescence microscopy image of a brain section. The image is split vertically by a white line. The left side shows a complex, multi-layered structure with various blue and cyan spots, representing the VMH (ventral medial hypothalamus). The right side shows a more uniform, solid blue area. A horizontal white line crosses the vertical one at the bottom, forming a crosshair. The text 'ABA: 69289693' is in the top left, and 'VMH' is in the bottom left.
