

ABA : 69352694

VPM/VPL

An axial brain scan image showing a cross-section of the brain. The image is predominantly black, with a central vertical line representing the midline. On the left side of the image (patient's right side), there are several bright blue spots of varying intensity, indicating areas of activation. The rest of the brain area is dark. A white crosshair is overlaid on the image, with the vertical line passing through the midline and the horizontal line passing through the level of the blue spots. The text 'ABA : 69352694' is located at the top left, and 'VPM/VPL' is at the bottom left.
