

ABA: 69407373

M

This image shows a fluorescence microscopy view of a cell, divided into four quadrants by a white crosshair. The top-left quadrant contains a bright, localized spot of light, likely representing a specific organelle or protein localization. The rest of the cell is dimly lit with a blue background. The text 'ABA: 69407373' is in the top-left corner, and 'M' is in the bottom-left corner.
