CA2/CA3

A fluorescence microscopy image of a brain section, likely from a rat, showing the CA2/CA3 region. The image is a grayscale heatmap where the color scale ranges from dark blue (low intensity) to yellow (high intensity). The brain's gyri and sulci are visible. The CA2/CA3 region is highlighted in a lighter blue/cyan color, indicating higher fluorescence intensity. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA : 69444897' is located in the top left corner, and 'CA2/CA3' is located in the bottom left corner.
