

ABA : 69526402

ME

The image displays two axial brain slices. The left slice shows a focal area of increased signal intensity in the posterior region, while the right slice shows a similar area of increased signal intensity in the anterior region. A vertical line is drawn between the two slices, and a horizontal line is drawn below them, intersecting at the center of the focal areas. The text 'ABA : 69526402' is located in the top left corner, and 'ME' is located in the bottom left corner.
