

ABA : 69527836

SCN

The image displays two coronal brain slices. The left slice shows a large, irregularly shaped region of blue activation in the medial prefrontal cortex, which is the location of the subcallosal nodule (SCN). The right slice shows a similar but slightly smaller blue region in the same anatomical location. A vertical white line separates the two slices, and a horizontal white line is positioned below the brain slices. The text 'ABA : 69527836' is located at the top left, and 'SCN' is at the bottom left.
