CA1

A fluorescence microscopy image of a brain section, likely a coronal slice, showing blue fluorescent spots. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant contains the text 'ABA : 69528136'. The bottom-left quadrant contains the text 'CA1'. The brain tissue is dark, and the fluorescent spots are bright blue. There are several spots visible, with a prominent one in the bottom-left quadrant and another in the top-right quadrant. The spots are scattered throughout the brain tissue, with a higher density in the left hemisphere.
