

ABA : 69530905

SC

This image is an axial brain scan, likely an MRI, showing a cross-section of the brain. The brain tissue is represented in shades of blue. A prominent feature is a focal area of hyperintensity (brighter yellow-green) located in the upper left quadrant of the image, which corresponds to the left frontal region of the brain. The rest of the brain tissue appears relatively uniform in intensity. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA : 69530905' is located in the top left corner, and 'SC' is in the bottom left corner.
