

ABA : 69540519

CA1

The image displays a coronal cross-section of a human brain. The brain tissue is rendered in a dark blue color against a black background. A vertical white line runs down the center, representing the midline. A horizontal white line runs across the middle of the brain. In the left hemisphere (viewer's left), there are several bright blue spots of varying intensity, indicating areas of activation or interest. The most prominent spot is located in the lower-middle part of the left hemisphere. The text 'ABA : 69540519' is positioned at the top left, and 'CA1' is at the bottom left.
