

ABA : 69549661

Tg

The image displays a fluorescence microscopy view of a plant embryo, likely a tobacco or Arabidopsis, showing a bright blue spot at the base of the shoot apical meristem. The embryo is divided into four quadrants by a vertical and a horizontal white line. The blue signal is localized to the lower central region, indicating the presence of a specific marker or protein. The text 'ABA : 69549661' is visible in the top left corner, and 'Tg' is visible in the bottom left corner.
