

ABA : 69672204

VA/VL

An axial brain scan image showing activation in the left hemisphere. The image is a grayscale slice of a brain, with a vertical line indicating the midline. The left side of the image (patient's right) shows several bright, localized spots of activation, primarily in the frontal and parietal regions. The right side of the image (patient's left) shows a relatively uniform, low-level activation across the entire slice. The text 'ABA : 69672204' is located in the top left corner, and 'VA/VL' is in the bottom left corner.
