

ABA: 69752161

SCN

The image displays two coronal sections of a brain, likely from a mouse, showing the location of the suprachiasmatic nucleus (SCN). The brain sections are stained with a blue fluorescent marker, which is visible in the SCN region. The sections are positioned symmetrically around a central vertical axis, with a horizontal line indicating the level of the SCN. The text 'ABA: 69752161' is located in the top left corner, and 'SCN' is located in the bottom left corner.
