SPa ventral

The image displays two side-by-side brain scans, likely from a rat, showing the ventral view of the SPa (subpretectal area). The scans are rendered in a solid blue color against a black background. A vertical white line separates the two scans, and a horizontal white line is positioned below the scans. The text 'ABA: 69782252' is located at the top left, and 'SPa ventral' is at the bottom left.
