

ABA: 69980172

VA/VL

This image is an axial brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented by a blue color, with a darker blue area indicating a focal region of activation or abnormality. The activation is located in the left hemisphere, specifically in the posterior region, likely involving the occipital or parietal lobe. The brain is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 69980172' is located in the top left corner, and 'VA/VL' is located in the bottom left corner.
