

ABA:70192147

A posterior

The image displays a cross-sectional scan of a brain, likely an axial slice. The brain tissue is rendered in a dark blue color against a black background. A vertical white line runs through the center of the brain, and a horizontal white line crosses the lower portion of the image. In the lower-left quadrant, there is a small, bright blue spot, which is the focus of the 'A posterior' label. The text 'ABA:70192147' is located in the top-left corner.
