

ABA:70194504

CA2/CA3

This image shows a fluorescence micrograph of a brain section, likely from a rodent, stained with a blue fluorescent marker. The image is divided into four quadrants by a white crosshair. The fluorescence is most intense in the left half of the image, particularly in the lower-left quadrant, where it appears as bright blue and cyan spots. The right half of the image shows much less fluorescence, appearing mostly black. The text 'ABA:70194504' is in the top-left corner, and 'CA2/CA3' is in the bottom-left corner, indicating the specific anatomical region of interest.
