VMH

A fluorescence microscopy image of a brain section, likely from a mouse, showing the ventral medial hypothalamus (VMH). The image is split vertically into two panels. The left panel shows a blue fluorescent signal, while the right panel shows a dark, non-fluorescent area. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain section and the horizontal line passing through the bottom of the image. The text 'ABA:70200818' is in the top left corner, and 'VMH' is in the bottom left corner.
