

ABA:70201331

ME

The image displays a coronal section of a brain, likely from a rodent, with a blue fluorescence signal. The signal is concentrated in a small, bright spot in the upper-left quadrant of the brain section. The rest of the brain tissue shows a uniform, low-intensity blue fluorescence. A vertical white line is drawn through the center of the brain, and a horizontal white line is drawn across the bottom. The text 'ABA:70201331' is located in the top-left corner, and 'ME' is in the bottom-left corner.
